□ Interest Rates Structure

■ Interest Rates on Monetary Policy Instruments and CBJ's procedures

◆ The CBJ decided during 2022 to raise interest rates seven times by 400 basis points on all monetary policy instruments and 425 basis points on O/N window rate. During this year the CBJ raised the

interest rates on all monetary policy instruments by 100 basis points, and this is for the four times during 2023, to become as follow:

- The CBJ main interest rate: 7.50 percent.
- Re-discount Rate: 8.50 percent.

- Overnight Deposit Window Rate: 7.25 percent.
- Weekly/ Monthly Repurchase Agreements: 7.50 percent.

This decision comes in line with the continuation of the inflationary pressures in the regional and international economic environment, compared to the rates targeted by Central Banks, which contributed to a rise in the recorded inflation rates in the Kingdom at 2022 and their expectations within the short-term.
