Circular to mobile payment service providers
Subject: Implementing the payment service using electronic
wallets on e-commerce platforms

After greetings,

Based on the encouragement of innovation in non-traditional financial products and services, which is one of the basic and strategic pillars that the Central Bank of Jordan aims to achieve in the financial sector, and in light of the developments taking place in the mobile payment system to target the sector of merchants' funds collection management (Acquiring), and the move to provide electronic wallets as a means of payment in e-commerce platforms, please be informed with the following:

First: Obligating all mobile payment service providers to provide payment service to electronic wallet customers while ensuring all rules related to interoperability, requirements and standards specified by the manager of the mobile payment system (the Jordanian Payment and Clearing Company) to receive payment through the websites that provide this service.

Second: Permitting mobile payment service providers wishing to provide money collection management services to the e-commerce sector, provided they adhere to the requirements and standards specified by the mobile payment system manager (the Jordanian Payment and Clearing Company) to ensure high levels of speed, ease, and security to protect this sector and promote the use of electronic wallets as a means of payment, within a time

This document has been translated for knowledge, for legal purposes the Arabic version prevails specified by the system administrator and in accordance with the legislation issued by the Central Bank in particular.

Respectfully,,

**Governor
Dr. Ziad Fariz**
