Prices

The general price level, measured by the percentage change in CPI, increased by 0.3 percent during 2019, compared to a rise of 4.5 percent during 2018. The drop in inflation occurred as the impact of price and tax measures taken by the government in early 2018 faded out, most notably, the tax on tobacco and cigarettes and the liberalization of bread prices, as well as the drop in oil prices in the international markets. The inflation rate during 2019 was an outcome of the following:

- The increase in the prices of some items and groups, notably:
 - “vegetables and legumes dry and canned” prices increased by 1.7 percent, compared to a contraction of 1.8 percent during 2018.
 - “cereals and products” prices increased by 3.8 percent, compared to a rise of 21.2 percent during 2018.

- **Tax Revenues**

Tax revenues increased by JD 149.6 million, or 3.6 percent, during the first eleven months of 2019, compared to the same period of 2018, to reach JD 4,251.7 million (66.9 percent of domestic revenues). **Following are the main developments in tax revenue items:**

- An increase in the proceeds of **income and profit taxes** by JD 96.7 million, or 11.0 percent, to reach JD 973.3 million, accounting for 22.9 percent of total tax revenues. This increase came as a result of the rise in the proceeds of taxes on “companies and projects” by JD 52.3 million, or 7.4 percent to reach JD 756.7 million, accounting for 77.7 percent of total proceeds of income and profits taxes, as a result of the increase in the profit for the companies listed on the Amman Stock Exchange by 0.3 percent to reach JD 930.2 million in the first three quarters of 2019, compared to JD 927.7 million for the same period of 2018. Further, the proceeds of income tax on individuals increased by JD 44.5 million, or 25.8 percent, to reach JD 216.7 million. This was due to the implementation of the Amending Income Tax Law, in addition to the extension of the exemption from income tax late payment fees until the end of June 2019.
- An increase in the proceeds of **general sales tax on goods and services** by JD 78.0 million, or 2.7 percent, to reach JD 2,955.0 million, accounting for 69.5 percent of total tax revenues. This result was driven by the increase in the proceeds of sales tax on commercial sector by JD 78.1 million, on domestic goods by JD 67.4 million, on services by JD 19.6 million. However, the proceeds of imported goods went down by JD 86.9 million.

- A decrease in the proceeds of **taxes on financial transactions (real estate tax)** by JD 15.1 million, or 17.7 percent, to reach JD 70.3 million.
- A decrease in the proceeds of **taxes on international trade and transactions**

● Non-Tax Revenues

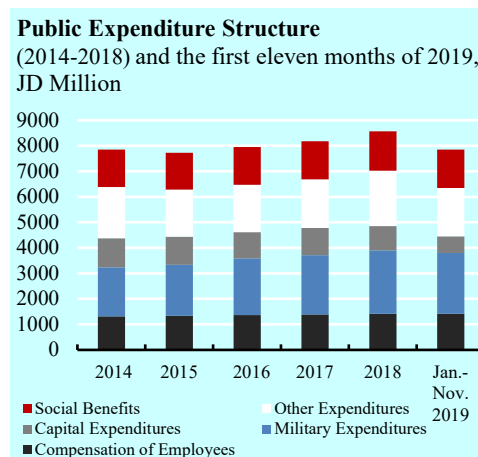

- “Other revenues” increased by JD 8.0 million, or 0.4 percent, in the first eleven months of 2019 to reach JD 2,094.4 million. This increase was chiefly due to the following:
 - An increase in the property income revenues by JD 137.2 million to stand at JD 376.8 million (of which financial surplus of own-budget governmental agencies amounted to JD 340.6 million against JD 217.5 million during the same period of 2018).

As for the first eleven months of 2019, public expenditures increased by JD 370.2 million, or 4.9 percent, compared to the same period in 2018 to stand at JD 7,855.7 million. This increase was an outcome of the rise in current expenditures by 5.9 percent, and the drop in capital expenditures by 4.3 percent.

◆ Current Expenditures

Current expenditures went up by JD 399.9 million, or 5.9 percent, in the first eleven months of 2019 to reach JD 7,198.6 million (91.6 percent of public expenditures). Because of the growth rate of current expenditure is higher than that of domestic revenues, the coverage ratio (measured by the ratio of domestic revenues to current expenditures) decreased to 88.3 percent, against 91.2 percent during the same period of 2018. The increase in current expenditures was due to the following:

- An increase in the compensation of civil sector’s employees (wages, salaries and social security contributions) by JD 132.2 million to reach JD 1,421.0 million.
- An increase in military expenditures item by JD 117.6 million to total JD 2,377.2 million.

GDP, the fiscal deficit reached to 4.5 percent compared to 3.5 percent in the same period of 2018.

- ◆ When foreign grants were excluded, the overall fiscal deficit amounted to JD 1,501.5 million (-5.3 percent of GDP) during the first eleven months of 2019, compared to a fiscal deficit of JD 1,287.4 million (-4.7 percent of GDP) in the same period of 2018.
- ◆ The general budget recorded a primary deficit excluded foreign grants (domestic revenues *minus* total public expenditures excluding interest payments on public debt) in the amount of JD 474.9 million (-1.7 percent of GDP) during the first eleven months of 2019, against a primary deficit of JD 365.2 million (-1.3 percent of GDP) in the same period of 2018.

This increase was an outcome of the rise in the domestic public debt of the general budget by JD 2,089.1 million, and the decrease in the domestic public debt of own-budget agencies by JD 308.2 million compared to their levels at the end of 2018, standing at JD 15,441.4 million and JD 2,560.3 million,

respectively. The increase in the budgetary domestic public debt was mainly attributed to the rise in the balance of treasury bills and bonds by JD 2,090.0 million, compared to its level at the end of 2018, to reach JD 15,165.3 million, and the stability of the outstanding balance of loans and advances provided by the CBJ to the central government at the level achieved at the end of 2018 at JD 271.7 million. However, the decrease in the domestic public debt of own-budget agencies was driven by the decrease in loans and advances extended to these institutions by JD 235.7 million,

compared to their level at the end of 2018, to reach JD 2,022.3 million. Moreover, the own-budget agencies bonds decreased by JD 72.5 million, compared to the end of 2018, to reach JD 538.0 million.

It is worth mentioning that the balance of the external public debt denominated in the U.S. Dollar accounted for 73.6 percent of the total external public debt, and the debt in Euro accounted for 9.7 percent. However, the Japanese Yen accounted for 5.5 percent, Kuwaiti Dinar (5.0 percent), and SDR (4.0 percent).
- In light of the above-mentioned developments, gross public debt (domestic and external) increased by JD 2,095.4 million at the end of November 2019 to stand at JD 30,403.7 million (97.6 percent of GDP) compared to JD 28,308.3 million at the end of 2018 (94.4 percent of GDP).
- On the other hand, government deposits with the banking system decreased by JD 157.1 million at the end of November 2019, compared to the end of 2018, to reach JD 1,250.6 million.
- Thus, net domestic public debt of the central government (the gross domestic public debt of the central government *minus* government deposits with the banking system) increased by JD 1,938.1 million at the end of November 2019 to reach JD 16,751.2 million (53.8 percent of GDP compared to 49.4 percent of GDP at the end of 2018). Whereas, net public debt increased by JD 2,252.6 million to stand at JD 29,153.2 million, accounting for 93.6 percent of GDP compared to 89.7 percent of GDP at the end of 2018.
